DROI2M - Introduction

Introduction

Your programme

The master offers:

- a common base of fundamental legal subjects;
- a choice of options during the two years;
- the choice of a professional focus in the second year;
- writing a thesis;
- an internship or an exchange program (in Belgium or abroad).

DROI2M - Teaching profile

Learning outcomes

After a three-year bachelor, the programme in Master en droit has the dual objective of adding to the student's general training by teaching fundamental subjects (core courses) and providing him with specialist training in subjects more closely linked to his future professional career (focuses and optional courses). The student chooses his specialisation from the coherent set of subjects.

The balance between general training and specialised training should provide the student with the opportunity to acquire legal skills of a highly technical level, aided by skills in critical reflection.

The Master's programme is also intended to help students familiarise themselves with the world of work (internship and dissertation), broaden their linguistic skills (English courses and exchanges with KULeuven) and perfect their training abroad (Erasmus exchanges).

On successful completion of this programme, each student is able to :

1 GOING FURTHER

Critically apply and enrich the knowledge acquired and completed by the end of this programme.

- the interdisciplinary business creation programme; or
- an exchange stay; or
- courses taught by foreign professors.

5. QUESTIONNING AND GETTING INVOLVED

Ask questions about the choices conveyed by standards, form personal opinions and get involved in promoting the founding values of the law.

- 5.1. Understand the relative nature, in time and space, of a legal solution, and question the relevance of the choices it conveys.
- 5.2. Be able to form and express a personal opinion on a legal controversy or a problem they have identified.
- 5.3. Based on an analysis of human, family, economic or social situations and mechanisms covered by the law, consider the appropriateness of legal solutions and ways of improving them, and act accordingly.
- 5.4 Identify and promote the ethical and social values on which the law and justice are based, and guard against any form of instrumentalization.

6. GETTING ORGANIZED AND ADAPTING

Organizing your work, being able to adapt to new contexts and evolve positively in them, having integrated a logic of continuous development.

- 6.1. Organize, plan and meet deadlines.
- 6.2 Identify and integrate, independently, the new knowledge and skills needed to be able to grasp new contexts and/or situations quickly, identify limits and call on appropriate external resources if necessary.
- 6.3 Integrate a logic of self-assessment, continuous learning and development, which is essential if you are to develop positively in your future professional environment.

Programme structure

The student constructs his programme to include four main coherent sections: core courses, a dissertation (and supporting seminars), a focus (30 credits) and 25 ects of optional courses.

The programme of the first year of the Master is made up of:

- courses and a tutorial from the core courses ;
- the supporting seminars for the thesis ;
- optional courses for 15 credits (2nd semester).

The programme of the 2nd year of the Master is made up of:

- a lesson of Law, change and society.
- a tutorial in the selected focus.
- a selected focus, from the eight focuses available (on selection) either at UCLouvain, at KUL or abroad (1st semester) ;
- the thesis (spread out across the year) ;
- 10 ects of optional course, from the optional courses available or optional courses taken abroad at a partner university (Erasmus) (2nd semester).

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
