## PÉDAGOGIE

---

The programme is based on high academic standards with highly specialised professors and practitioners working on EU affairs.

The programme includes not only state-of-the-art academic and technical knowledge but also updated case studies so as to provide useful information and methodology on current issues for those who are to be involved in field activities.

The geographical proximity of Brussels, the centre of the European institutions and lobbying enhances the business and policy-oriented aspects of the programme with the participation of field experts from EU institutions, businesses, NGOs or consultants in European affairs.

Events such as visits of EU institutions, NGOs and think-tanks will be organized throughout the year to familiarize our students with the Brussels EU bubble. In addition, students will be attending EU affairs conferences and a recreational team-building event is also part of this programme.
