

ROGE2M1 - Introduction

Introduction

Introduction

Students aim to achieve an expert level of knowledge in their fields. At the end of the course, they will attain a the European “proficient user” level in the two languages they study.

Their training has a practical focus: they take part in language lessons in their target languages, language laboratory exercises, seminars and individual assignments on detailed questions, they write a dissertation in one of the two languages studied and have the opportunity to conduct ERASMUS studies abroad, etc..

Your profile

- students hold bachelor’s degrees in modern languages and literatures and wish to further their knowledge of two modern languages;
- students have affirmed their interest in literary or linguistic issues and wish to specialise in their preferred fields;
- students wish to undertake quality training in a stimulating work environment;
- students wish to direct their training towards employing their skills in a professional environment.

Your future job

Students of the modern languages and literatures master find employment easily.

Those who hold the secondary teacher training certificate (AESS) favour working in secondary education (general and technical streams). The private sector (banks and companies) also employs a certain number of language teachers.

Your programme

The master offers:

- in-depth expertise in a Germanic language (English, German, Dutch) and a romance language (French, Spanish, Italian). German-

Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, in the first annual block of their Masters programme, students must take supplementary classes chosen by the faculty to satisfy course prerequisites.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below) that students must take to supplement their knowledge.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

- Previous course of study including **at least 3 years of higher education** (equivalent to 180 European credits), leading to an undergraduate degree;

- For holders of a **degree from outside Belgium**:

1. an overall average of at least 60% (12/20) for the entire course of study completed at the home institution and giving access to this program;
2. official attestation of proficiency in language(s) at the required level (see specific entry requirements), to be attached to the application file. The official attestation must be issued by an organization recognized as a full member by ALTE (see <https://alte.org/Our-Full-Members>).

If a document is missing from the online application, it must be justified (see [UCLouvain Enrolment Department's frequently asked questions](#), in particular "[What do I do if my online application asks for a document I don't yet have?](#)")

Applications deemed admissible are forwarded to the Faculty by Enrolment Services. Applications that do not meet these criteria are automatically rejected.

Eligibility criteria

Applications submitted to the Faculty by UCLouvain's Enrolment Department are examined by the program's jury in accordance with the specific conditions of access detailed above.

The jury decides on the admissibility of candidates on the basis of the information contained in their application file, the quality of the training they have undergone and the results they have obtained.

When examining the application, the jury will pay particular attention to the following points:

- **Consistency** between the candidate's previous academic career and the prerequisites for the targeted program. The match between the candidate's academic background and the UCLouvain bachelor's degree giving direct access to the master's program

Teaching method

The different pathways give the student the possibility to direct his training towards his skills and interests and thus acquire relative autonomy in his training. The programme's different areas of study offer a set of coherent, high-quality classes.

- Modalities which promote interdisciplinary: in the master 60, it is the student's choice (geared towards literature, linguistics and skills classes) which holds sway.
- Variety of teaching strategies (including e-learning): use of multimedia for the study of Germanic and Romance languages.
- Diversity of learning situations: individual and group work, seminars and lectures ; tutorial for end of study work (TFE).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There are many types of evaluation: evaluation of work and seminars and/or oral and written exams.

The student must write his masters Individual final project in one of the two languages in his programme and add a summary in French.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

The participation in an international mobility scheme is not authorized within the framework of this 1-year master's programme.
