Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, in the first annual block of their Masters programme, students must take supplementary classes chosen by the faculty to satisfy course prerequisites.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below). The complementary module (maximum 60 credits) is tailor-made by the jury according to the student's educational background and added to the Master's programme in order to acquire fundamental knowledge to then pursue the 120 credits of the Master's programme.

Who is it for?

- Students from a non-university higher education institution
- Candidates admitted with additional training
- Candidates admitted on the file with additional training

All the explanations are in [this document](#) (in French).

Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

All Belgian masters	If students have followed: the Minor in Philosophy in bachelor the Certificat universitaire en philosophie (fondements) the Certificat universitaire en philosophie (approfondissement)	Access with additional training	Maximum 15 credits of supplementary classes integrated into the master's programme Programme to be determined depending on the student's educational background (consult Admission and Enrolment Procedures) If the UCLouvain Admissions Office considers the enrolment application sufficiently complete, it will submit the application to the faculty for a decision.
Any other Belgian master		Access with additional training	Programme to be determined depending on the student's educational background (consult Admission and Enrolment Procedures)
Foreign Masters		Access based on application	All candidates must ensure that they meet the specific access requirements. In case of admission, maximum 60 credits of supplementary classes integrated into the Master's programme (consult Acces on the file).

Holders of a non-University 2nd cycle degree

Only applicable to graduates of higher education institutions of the French Community of Belgium

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Teaching method

The courses on the programme of the [Master \[120\] in Ethics](#) guarantee students lessons in ethical reflection and train the students in how to acquire the necessary scientific skills for ethical reflection in a specific field. As for the research seminars, they are the place "par excellence" where the student learns how to integrate research work into an academic debate on ethics.

Given that UCLouvain is a complete university which is very up-to-date in ethical research, the students are easily integrated into the activities of the various ethical research bodies in UCLouvain: Centre de philosophie du droit (CPDR), Unité d'éthique biomédicale (EBIM), Chaire Hoover d'éthique économique et sociale (ETES), Centre interdisciplinaire techniques, sciences et sociétés (CITES).

Incidentally, internationalisation is not forgotten, as students can take part of their training away from UCLouvain, either by sharing courses with KU Leuven, or through a stay at a foreign university. Finally, the programme ends with the writing and oral defence of an individual piece of research.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

In the courses and all the more so in the seminars on the master en éthique, students are often evaluated on their individual work. The relatively small class sizes means that teachers can provide follow-up guidance and constructive criticism.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits

Mobility and/or Internationalisation outlook

As part of their studies, students enrolled in the [Master \[120\] in Ethics](#) are encouraged to undertake:

- a **study visit** for one term (30 credits) in one of the [many universities](#) with which the School of Philosophy has concluded partnership agreements, in Europe under the Erasmus+ programme, in Switzerland under the SEMP programme, or elsewhere in the world under the FAME/Mercator programme and/or
- a **study visit** for one term (30 credits) in one of the partner universities in Flanders, under the Erasmus Belgica programme and/or
- an **internship** in Belgium or abroad, in preparation for their Master's dissertation.
