

ECAB1BA - Introduction

Introduction

Introduction

Completing a bachelor's degree in economics and management in a bilingual French-English programme is an asset for your future studies and career.

The Faculty of Economics, Social and Political Sciences and Communication Saint-Louis in Brussels offers a bilingual French-English economics and management programme. It allows students to take part of their bachelor's degree in English.

Economics and management sciences are two disciplines which focus on the economic dimension of society. Economics seeks to understand how the economy functions as a whole. It analyses the mechanisms which structure the exchanges between individuals, companies (private or public), the state and countries. In particular, it studies the functioning of the various markets in which these exchanges take place: financial markets, labour markets, international markets, etc. Management sciences adopt the viewpoint of the organisations active within the economic system, be they companies or administrations.

The bilingual bachelor's degree in economics and management at the Saint-Louis - Bruxelles site, in the centre of Brussels (near Botanique and Rogier metro stations), offers students the chance to discover both approaches within a single programme. After gaining in-depth knowledge of these two disciplines according to their interests and skills, students can choose economics or management at master's level.

Your profile

The bachelor's degree in economics and management is for you if:

- you are interested in the business world;
- you want to understand how the stock market works;
- you want to develop your critical thinking skills and your ability to analyse economic information;
- you are looking for an extensive programme which leads to several different opportunities;
- you have a good command of English.

There is no selection process for multilingual programmes.

•

- [Bachelor in Law \[Dual Bachelor's degree for the holder of a Bachelor in Economics and Management\]](#)
- [Bachelor in Philosophy \[Dual Bachelor's degree for the holder of a Bachelor in Economics and Management\]](#)

ECAB1BA -

- Knowledge of the cultural environment, particularities and ways of thinking associated with the English language
- The ability to conduct research in the field of economics and write a substantial academic paper in English

Programme structure

The bachelor's degree in economics and management is a first-cycle programme (a 'transition' bachelor's degree), consisting of 180 credits spread over three years (60 credits per year). It prepares students for a number of master's degree programmes in the second cycle.

This programme has been designed to provide students with the tools and disciplinary knowledge as well as the expertise and skills specific to both fields (economics and management), so that they can access the various master's degree programmes available to them later on (master's degree in economics or master's degree in management).

The economics and management programme offers a comprehensive range of courses which gives students a solid grounding in the disciplines of economics and management (microeconomics, macroeconomics, finance, production management, human resources management, etc.), as well as a command of quantitative methods (mathematics and statistics). It also provides a general introduction to the humanities and social sciences (sociology, philosophy and political science), the essential acquisition of effective language skills in English in the bilingual programme, and the opportunity to include course units provided by our partner, KU Leuven - Brussels Campus.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Detailed programme per annual block
