Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Teaching method

The link between theoretical and practical aspects: the student prepares for a career by acquiring the intellectual tools which will help him carry out this job with aplomb; individual and group work help to make the course more stimulating. At the same time, under the expert guidance of teachers in this sector, the student carries out internships helping him get to know his strong points and weaknesses and remedy the latter.

The joint degree programmes with the University of Hanoi and the Fu Jen Catholic University promote teacher and student mobility, the exchange of courses (via e-learning, video-conferences, etc.) and of experience.

Although students can take advantage of a distance learning platform for certain courses, this Master's degree is not a [distance learning programme](#).

Evaluation

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Depending on the nature of the course and the teaching methods, students may be assessed in different ways. Some courses
