Introduction

MINECON - Teaching profile

Learning outcomes

The minor in economics gives students an introduction to the basic disciplines of economic science (knowledge) and the way we apply the tools of economic analysis to concrete problems (know-how).

Under certain conditions, the minor gives students access to the Master's in economics.

On successful completion of this programme, each student is able to :

1. Maîtriser, avec la rigueur exigée par les sciences économiques, les fondements théoriques (connaissances, concepts, outils, ...) qui constituent les prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences économiques.
2. S'approprier et maîtriser les fondements de la démarche scientifique (méthodologie de recherche et outils méthodologiques spécifiques aux sciences économiques), prérequis indispensables dans une perspective de (ré)orientation vers le master en sciences économiques.
3. Faire preuve d'une bonne capacité d'analyse et de raisonnement spécifiques aux sciences économiques, avec la rigueur requise.
4. Appréhender, questionner, analyser, discuter et résoudre une problématique spécifique en économie, en mobilisant les fondements disciplinaires et méthodologiques pertinents.
5. Développer un angle de lecture et une analyse critique et réflexive spécifiques aux sciences économiques.
