MINSPED - Information

Access Requirements

Since it does not require any prerequisite subjects or special training, the minor is open to any student enrolled in a bachelor programme at UCLouvain. Since it employs tools and approaches which mainly come from social and human sciences, it provides further training both for students in science and technology or health sciences as well as for those who wish to widen their programme in human sciences.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

This minor may be chosen by students studying a particular subject as a means of broadening their horizons and training in an interdisciplinary issue. It may also be used as a preliminary stage towards the 120 credit Master in Population and Development Studies.
