

CLIM2M - Introduction

Introduction

- Concevoir des solutions dans le domaine de la gestion des ressources et de l'aménagement du territoire.
- Tester les solutions et évaluer les impacts suivant des objectifs de développement durable.
- Mobiliser les compétences nécessaires pour réaliser un travail de recherche en climatologie.
- Comprendre la dynamique de l'atmosphère, de l'océan, et du système climatologique dans son ensemble.
- Appréhender les techniques de modélisation du climat, en couvrant les aspects théoriques et techniques.
- Savoir analyser et interpréter des données climatiques.
- Mener une analyse critique sur des questions liées aux changements climatiques (passés et futurs) et en comprendre et anticiper impacts sur la société et l'environnement de façon à devenir un acteur responsable dans le monde d'aujourd'hui.

Programme structure

Le programme comprises core subjects of 60 credits, 30 credits for the focus and 30 credits for optional subjects.

Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

CLIM2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.
