GESM2M1 - Introduction

Introduction

Introduction

This one-year Master's programme includes most elements of the core management programme. It aims to teach the main management concepts to supplement your first degree obtained in another field.

Your profile

You

- have a university bachelor's degree in management or hold one of the non university bachelor's degrees listed in the access requirements of this programme;
- would like to further your education with a management course;
- would like to add value to your degree by developing an understanding of management issues faced by the organisations or companies where you will be working;
- have a Bachelor's degree in Economics and Management awarded in the French Community of Belgium.

Your future job

A position of responsibility in corporate leadership and management in which you can put into practice your ability to undertake initiatives, transform them into economic realities, organise and ensure the continuity of these activities, seek out the necessary resources and combine them in an appropriate manner.

Our management graduates make a career for themselves in many sectors, including industry (production and operations

GESM2M1 - Teaching profile

Learning outcomes

The Master [60] in Management programme prepares graduates to take up the challenge **to become socially responsible professionals with a comprehensive overview of the various management functions.**

The programme develops the fundamental skills and expertise required for management functions in public and private, national and international, commercial and non-commercial organisations.

Students embarking on this programme will already have a non university Bachelor's degree in a subject other than management (see list on Access Requirements) or a Bachelor's degree in Management. This Master's programme will enable them to broaden or further

4. Innovation and Entrepreneurship

Innovate, initiate and lead change.

4.1 Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.

4.2 Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.

4.3 Integrate, collaborate and actively drive forward collective actions for change, and diffuse for social awareness.

4.4 Reflect on and improve the content, processes and goals of professional practices.

5. Work effectively in an international and multicultural environment

Work as an interface between stakeholders with different rationales, belief systems, training, nationalities, cultures ...

5.1 Understand the inner workings of an organization: develop a global approach and integrate the internal logic used, within the organization.

5.2 Position and understand the functioning of an organization, in its local and international socio-economic dimensions and identify the associated strategic issues and operational decisions.

5.3 Understand and establish their own role and scope for action, in the overall operation of the organization, while liaising with the various internal and external stakeholders.

6. Teamwork and leadership

Holders of a non-University 2nd cycle degree

Non-University 2nd cycle degrees do not allow access to this programme.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Admission and Enrolment Procedures for general registration

Teaching method

This programme offers general training in the various fields of management without seeking to go into any of them in depth. It is therefore an introduction to management.

The main aim is to immerse students in these different fields to give them an overall understanding of the business world and develop their managerial mindset and decision-making capabilities. Therefore, in addition to theory courses to provide a framework for learning, there are case studies and problem-solving sessions. With the same goal in mind, there is frequent use of group work.

The programme attracts students of many nationalities and with very varied educational backgrounds. Through the exchange of very different points of view between students, lecturers, assistants and outside speakers, they gain a broader perspective of management and economics.

For students who have a gap in their economics or maths/statistics education, extra courses will be added to their programme to provide them with the prerequisites they need to gain a good understanding of management.

The theory courses are accompanied by exercise sessions, supervised individual or group assignments, business simulation games, etc. to help students grasp and digest the concepts taught, even those students whose first degree is in a subject with little connection to management. This support for students through numerous exercises is in line with the teaching reform that has taken place at LSM in recent years. It has been well received by the students and was also recently highlighted by the external auditors undertaking the EQUIS accreditation procedure.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Several assessment methods are used in this programme, with a particular focus on what are known as "active" teaching methods, which encourage students to take an active role in the learning process:

- **continuous assessment** of each student's output/acquired knowledge, individually or in groups: presentations, moderation of debates, written reports;
- **ad hoc assessment** of acquired knowledge via written and oral exams after the six-week course block or during the examination sessions.

To find out more about assessment, click on the title of the course to see the course description.
