HORI1BA - Introduction

Introduction

Introduction

The [Bachelor in Ancient Languages and Literatures: Oriental Studies](#) trains students to become specialists in one or more of the following fields : Ancient Egypt, Ancient Near East, Greek World, Biblical Studies, Byzantium, Medieval Near East, Islam and the Arab World, India, Far East.

Working on original textual sources, written in various different oriental languages, you will be required to develop progressively the ability to study these texts with rigour and precision to explain the context and discover the meaning.

This specialist training will enable you to develop general skills in precise, objective and critical analysis of information.

Your profile

To join this course, it is not necessary to have made a clear choice of career. A strong interest in languages, literature and history, as well as a passion for ancient and oriental civilisation is an excellent reason to do this training.

- Do you wish to open your mind to cultures which are different from our own, while discovering what today's society owes to ancient oriental civilisation?
- Do you enjoy discovering alphabets which are different from ours and studying the many different facets of human thinking by using textual sources in their original language?
- Do you like thorough analysis and wish to develop your critical skills?
- Do you enjoy documentary research and working in a library?

If so, you have what it takes to study Languages and Literatures: Oriental Studies.

Your future job

Some of our graduates work in the field of research, producing editions of classical texts or detailed studies on different aspects of ancient civilisations, while others go into teaching of ancient languages in secondary schools or universities, for which they will have done a Master's degree or teacher training after this degree. Others find posts in the private and public sectors particularly because of the versatility their training in philosophy, arts and letters. The intellectual rigour and open-mindedness which they acquire during the training enables them to make their mark rapidly in their work environment, even if they do not necessarily already have all the specific technical skills.

○ Minor (30 credits)

Students choose a minor from the list of available minors and take into account any access requirements laid down by the management bodies. They will distribute the 30 credits of the minor between the annual block 2 and the annual block 3 of their bachelor's degree, so that their course programme (major + minor) comprises 60 credits each academic year.
Maximum 1 element(s)

List of available minors

When accessing the **bachelor's cycle** (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option that allows students to:

- discover another discipline
- reflect on their personal learning project
- define the emphasis and meaning they wish to give to their training path
- access a Master's degree more easily (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:
