

GEST2M1 - Introduction

Introduction

Introduction

The Master's 60 credits in Management can be completed in one year, it covers most of the basic management programme. It aims to train you in the main management skills to enrich your basic training, previously acquired in another field.

Your profile

You

- have a second cycle university degree in sciences, in applied sciences or in human sciences;
- wish to acquire additional management training;
- wish to give an added value to your degree by developing an understanding of the management problems of the organisations or companies where you will be called upon to practise your profession;
- have a bachelor's degree economics and management from the French Community of Belgium.

You will get

- develop your knowledge and skills in various management positions needed in the private or public organisations;
- an in-depth understanding of the theories and methods used in different managerial domains;
- a strong training in management within an internationally recognised university;
- an opportunity to create your own network;
- a unique international experience in the heart of Europe.

Your future job

The ability to undertake, to transform initiatives into economic realities, to organise and ensure their continuity, to find the necessary resources and to combine them adequately are the skills expected of those who want to assume responsibilities in the direction and management of companies.

Our graduates are present in the highest management positions of companies. They can also be found in consulting, auditing, banking, industry (production and operations management) or environmental management.

Your programme

The programme you have to follow will depend on your previous academic background.

- Students who have obtained a **Belgian Master's degree in a field other than management** or a **non-Belgian Master's degree** must follow the [core courses programme](#) .
Please note that students who do not have the required background in economics will have the prerequisite course LESPO2100 "Political Economy" added to their programme. Those who do not have a basic knowledge of mathematics and statistics will have the prerequisite course LECGE1112 "Mathematics in Economics and Management I" added to their programme.
- Students who have a **direct access, like mentioned on the "access requirements"**, will have to follow the programme of an [advanced version of the Master 60 credits](#) .
- Students who have obtained a **short non-university bachelor's degrees**, from the official list visible on the [Access Requirements](#) page, must follow the [Additional requirements for admission](#)
- Students who have successfully completed the **preparatory module** must then follow the programme of an [advanced version of the Master 60 credits](#) .

- 4.1. Identify new opportunities, propose creative and useful ideas in situations that require new strategic approaches, break with existing models and paradigms, promote progress and change.
- 4.2. Initiate, develop and implement ideas around a new product, service, process or organizational structure, having evaluated the risks and remain pragmatic.

Detailed programme by subject

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

GEST2M1 - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Belgian "licence" in another field than Management	Meet the general and specific access requirements	Access based on application	If general and specific access requirements are met > possibility of access based on application with the possible addition of two supplemental training courses into the master's programme : one course in Economie politique and one course in Mathématiques > Submit a UCLouvain online access request
Non-Belgian Licence's (2nd cycle) university degree issued by a recognized academic institution	Meet the general and specific access requirements	Access based on application	If general and specific access requirements are met > possibility of access based on application file with the possible addition of two supplemental training courses into the master's programme : one course in Economie politique and one course in Mathématiques > Submit a UCLouvain online access request
Masters			
Belgian Master in another field than Management	Meet the general and specific access requirements	Access based on application	If general and specific access requirements are

Teaching method

This program provides general training and broad exposure relative to various areas of management.

It attempts to achieve an integration of such different areas in order to obtain a global understanding of businesses and to develop decision making and implementation capacity. With this objective, the program offers, on top of lectures which help structure business knowledge, the use of case studies and problem solving exercises. In this order, team work is often relied on.

This program intends to attract a target audience highly varied in its professional background and country of origin. The confrontation of different points of view among students, professors, lecturers and external speakers enriches students' perspectives on management and economics.

For students who face gaps in Economics or Maths / Statistics, courses will be added to their program in order to acquire the necessary prerequisites for a good understanding of management.

The lectures are complemented with individual or teamwork exercises, games, business simulation activities and in general, with tools that facilitate the understanding and assimilation of the concepts presented, even by students whose prior background is rather unrelated to management. This approach to learning is in line with the recent pedagogical reform at LSM-LLN and it has been widely appreciated by students. It has also been recently highlighted by the external auditors via the EQUIS accreditation procedure.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There are different methods of assessment: individual and/or group work and/or written and oral examinations.

Mobility and/or Internationalisation outlook

This programme has, for many years, attracted a significant proportion of international students (+/-30%) who have already gained a first degree in their home country and who wish to have additional training in management.

Possible trainings at the end of the programme

- [Master \[120\] in Management](#) (site of Louvain-la-Neuve)
- [Master \[120\] in Management](#) (site of Mons)
