- Modalities which promote interdisciplinary: in the master 60, it is the student's choice (geared towards literature, linguistics and skills classes) which holds sway.
- Variety of teaching strategies (including e-learning): use of multimedia for the study of Germanic and Romance languages.
- Diversity of learning situations: individual and group work, seminars and lectures ; tutorial for end of study work (TFE).

Evaluation

The evaluation methods comply with the regulations concerning studies and exams. More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There are many types of evaluation: evaluation of work and seminars and/or oral and written exams.

The student must write his masters Individual final project in one of the two languages in his programme and add a summary in French.

Courses are evaluated according to current university regulations (see General Examination Regulations). Students may find further information on specific evaluation methods in the course descriptions.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.
