

INTR2MC - Introduction

Introduction

INTR2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Internal Medicine, (Ministerial Decree of 19.03.1979, published on 15.03.1979).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least five years, full-time, including at least three years of foundation studies and two years of higher studies in Internal Medicine. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

○ WINTR2325	Travail de fin d'études de médecine interne (publication d'un article)		EB [q2] [] [15 Credits]						○ WIN

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

The Royal Decree of the 30.05.2002, relating to the planning of the medical offer for the public, published on the 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Internal medicine (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

Second part

- the candidate must have satisfied the requirements of the first part of the degree course of specialised studies in Internal Medicine.

Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.
