#### Introduction

Language and literature studies open the mind to the world. The objective is to provide you with a rigorous general education combined with linguistic and literary specialization in two areas: Latin studies and French studies.

At the end of the bachelor's degree, you will:

Year

**⌘ Option in culture and creation**

*The aim of this option is to provide students with the means to understand how a cultural object is conceived and produced (a work of art, a literary text, a performance, a film, an opera, etc.), and to enable them to discuss culture and the arts beyond simple statements like 'I like' or 'I don't like.' The goal is not to make them specialists in a specific cultural domain but to foster a nuanced appreciation and critical engagement. 10 credits per annual block:*

## Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

## The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Firstly, it involves developing a critical analysis of discourses and practices that involve paradigms at the root of current problems. This critical analysis will draw on what is traditionally referred to as the humanities (philosophy, arts, literature, history). Secondly, it aims to highlight the power of creation in the study of literary and artistic expressions. These are capable of addressing the representational deficit that affects the perception of the crises we are facing and of opening up alternatives.*
