The "Ancient Languages and Literatures: Classics" Bachelor's programme trains students seeking to become specialists in the study of ancient texts. Working on original documentary sources written in Greek and Latin, students will gradually develop an ability to translate these texts clearly and accurately with a view to explaining their context and identifying their human values. The challenge for them, at the end of their degree course, is to be able to use all the knowledge they have acquired to write up an individual assignment of limited scope, applying a rigorous academic method.

On successful completion of this programme, each student is able to :

### Programme structure

---

The bachelor programme in Ancient languages and Literatures: Classics totals **180 credits over 3 years** (3 x 60 credits). It consists of a basic major syllabus of 150 credits and a minor syllabus of 30 credits (2 x 15 credits, over years 2 and 3).

There are five main strands in the Bachelor's programme:

**(1) general training** in different humanities subjects (history and historical criticism, literature and linguistics, philosophy and religious studies, arts and civilisations);

**(2) training in Antiquity and Middle Ages studies** and the related disciplines of classical philology, including an introduction to Oriental languages and literature;

**(3) training in Greek language and literature** (history of the literature, study of the language, study of texts by writers of prose and poetry), which can lead on to a Bachelor's paper;

**(4) training in Latin language and literature** (history of the literature, study of the language, study of texts by writers of prose and poetry), which can lead on to a Bachelor's paper;

(5) training in a modern language (English or German).

The first year of the Bachelor's degree opens with a term which mainly consists of general training courses common to all the Bachelors' programmes in the Faculty. This common introduction to the fields of history, history of art and literature provides a basic grounding and enables students to change direction if they wish at the end of the first semester.

From the first semester of the first year there are also specific subject courses. These form the main part of the training in the second semester of this first year.

From Block 2, students continue their studies in their major subject and are also invited to choose a 30-credit minor with a view to broadening their intellectual and professional horizons. This minor can be selected from another faculty discipline or from another UCLouvain faculty, subject to certain admission requirements set by the programme managers.

## Course prerequisites

---

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).
