Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

The bachelor's degree in Law gives access to the Master in Laws which offers a wide variety of career possibilities. Many graduates in law become solicitors or barristers, or will be magistrates. But the skills of a jurist are also equally recognised in the world of business or in national and international public service. Jurists play an important and valuable role as companies find themselves more and more confronted with ever-increasingly complex and changing legislation which applies to industrial, operational and financial operations, without overlooking more recent domains such as protection of the environment, or consumer law. At every level, public administrations call upon jurists : in federal, regional, local, provincial and local administration, as well as in economic, social and cultural public services and youth protection etc.

Certain masters will be accessible to those students with a Bachelor's diploma in Law provided they have completed a minor in the subject in question and on condition they fulfil any necessary prerequisites.

The relevant information is provided on the description lists of the minors.
