

MLEG2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Legal Medicine (Ministerial Decree of 27.02.2002, published on 11.07.2002).

Programme structure

Length of training programme

The full-time training course lasts at least five years and includes theoretical courses on expertise medicine, a full-time practical training period on pathological anatomy lasting at least 18 months and a practical training period of in legal medicine equivalent to a full-time training course of at least 30 months. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

Organisation of the course

Pathological Anatomy

It is recommended to begin the course by means of a practical training period as a specialist assistant clinician doctor candidate in pathological anatomy, equivalent to a full-time training programme of at least 18 months in one or several recognised practical training services, in conformity with the Ministerial Decree of 26th April 1982 which fixes special recognition criteria for specialist doctors, work experience supervisors and services for the specialisation of pathological anatomy. The recommended length of this training course in pathological anatomy is from 2 to 3 years.

Legal Medicine

The training programme in Legal Medicine is equivalent to at least 30 months full-time training in one or several recognised practical training centres, in conformity with article 3, and includes, among others, a specific training course on legal clinical medicine, thanatology, toxicology, juridical criminology, penal law and analytical techniques in exploring biological traces. This training programme in Legal Medicine may be followed by a "MACCS" in pathological anatomy during the third year of studies.

Expertise Medicine

The theoretical training in expertise medicine is organised in the form of a university [certificate in Expertise Medicine and medicine insurance](#), equivalent to a full-time training programme of at least 12 months, including a course on responsibility rights, expertise procedure, sequeler propaedeutics within the different medical specialities and the evaluation of corporal damage.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Specific professional rules

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Legal Medicine.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of specialised training leading to this validation. The university certificate in medical expertise is awarded to candidates who have succeeded in their theoretical studies, participated in the seminars and the practical work experience periods and successfully defended a thesis. It can constitute a specific form of training, independent of the recognition as a specialist doctor in Legal Medicine.
