MUSI1BA - Introduction

Introduction

1. general optional training to consolidate a basic **general culture** (history courses by period, historical criticism, history of art and music, comparative approach to European literature, modern and ancient languages, philosophy, etc.).)
2. training in the **arts and civilizations** of the different periods and geographical areas of Western Europe (periods and geographical areas are chosen by the student);
3. training in all aspects of **musicology** (history, analysis, aesthetics, sociology, popular music, pop-rock music, organology, methodology, etc.).

The first year of the first cycle begins with a four-quarter course including general training common to historians, art historians and archaeologists. This common introduction to the fields of history, art history and literature provides a foundation for basic learning.

From the first four months of the first year, discipline-specific courses are also taught. These become the core of the course in the second four-month period of the first year. These include courses in musical training, introduction to musicology, music history, analysis, active listening and methodology. Particular attention is paid to outings and excursions (concerts or operas).

From the second year onwards, students pursue their major while being invited to broaden their intellectual and professional horizons by choosing a 30-credit minor from a varied list of minors common to the EHAC School.

List of available minors

When accessing the **bachelor's cycle** (annual block 2), students are invited to broaden their educational horizons by choosing a minor (see list at the bottom of the page).

What is a minor?

It is a kind of 30-credit option that allows students to:

- discover another discipline
- reflect on their personal learning project
- define the emphasis and meaning they wish to give to their training path
- access a Master's degree more easily (see the admission requirements for the Master's degree in question).

Please note that it is not possible to register for a minor outside the bachelor's degree!

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.
