### General access requirements

Translated from [https://www.galilex.cfwb.be/fr/leg\\_res\\_01.php?ncda=39681&referant=l02](https://www.galilex.cfwb.be/fr/leg_res_01.php?ncda=39681&referant=l02)

Art. 112. of the "Décret définissant le paysage de l'enseignement supérieur et l'organisation académique des études" :

§ 1. In accordance with the general requirements established by the academic authorities, students who have:

1. a master's degree;
2. an academic degree similar to the one mentioned in the preceding paragraph awarded by a higher education institution in the Flemish Community or the German-speaking Community, or by the Royal Military Academy, by virtue of a decision of the academic authorities and in accordance with any additional requirements they may establish;
3. a foreign academic degree deemed equivalent to the one mentioned in paragraph 1, in accordance with this Decree, a European directive, an international convention or other legislation, in accordance with the same requirements.

The additional admission requirements referred to in paragraph 2 are intended to ensure that the student has acquired the knowledge and skills required for the studies in question. When the additional admission requirements consist of one or more additional course units, these may not represent more than 60 additional credits for the student, taking into account all the credits that he or she may otherwise use for admission. These course units are part of the student's study programme.

§ 2. In accordance with the general requirements established by the academic authorities, a student who holds a title, diploma, degree or certificate of higher education, in the French Community or outside it, which does not grant him or her eligibility for admission to a specialised master's course by virtue of the preceding paragraph, may nevertheless be admitted by the jury of the course in question, in accordance with the additional requirements that it establishes, if the totality of the higher education that he or she has completed or the expertise that he or she has acquired is valued by the jury to be at least 240 credits.

§ 3. By way of derogation from these general requirements, the academic authorities may also admit to a specialised master's course holders of a title, diploma, degree or certificate awarded outside the French Community which, in that system of origin, grants direct eligibility for postgraduate studies, even if the studies sanctioned by these credentials are not organised into distinct degree courses or within a time period of at least five years.

### Specific access requirements

#### Specific Admission Requirements

- Candidates must have a degree as a Doctor in medicine, or a Master in medicine or as a doctor from a member state of the European Union which enables them to practise in Belgium.
- They must also have a document showing that after the selection examination, they have gained a place to specialize in medical oncology in a Belgian medical faculty.

Further details of the legal requirements and the practical procedures involved in the selection examination may be obtained from the administrative office.

Holders of a degree from outside the European Union may not enrol for this programme except in the context of a university certificate in partial specialized training lasting two years (if they are studying a specialization in their home country) or advanced specialized training for a year (if they have already gained the status of specialist in their country).

The Royal Decree of 30 May 2002 on the availability of medical studies, published on 14 June 2002, applies to candidates who wish to gain professional status as specialist doctors in medical oncology. (These candidates therefore fall into the category of generalists or specialists in the restricted intake. therefore fall into the category of generalists or specialists in the restricted intake. therefore fall into the category of generalists or specialists in the restricted intake.

Applications should be submitted to the lecturer in charge of the programme.

The organization of the selection examination is in accordance with the timetable and the general examination regulations.

**Selection committee**

The selection committee (MACCS) is made up of members of the programme committee together with two invited members and two

## Specific professional rules

---

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

## Evaluation

---

**The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".**

6 monthly clinical assessments: these are organized (in writing) by each candidate's placement supervisor and focus on different areas. Assessments for all the candidates are examined by all the placement supervisors at six-monthly meetings.

### First part

At the end of the three-year basic training, each candidate is assessed at an interview designed to test their general knowledge of internal medicine. In accordance with the Royal Decree of 16 March 1999, candidates will receive an official certificate to show they have successfully completed a special university training course.

### Second part

At the end of the three years of advanced training, each candidate is assessed on their in-depth knowledge of oncology. Candidates must also take the inter-university examination organized by the inter-university post-graduate training panel. They must produce a dissertation on a topic in medical oncology and publish an article.

When the above requirements have been fulfilled, the programme committee will award the academic degree of Advanced Master in Medical Oncology.
