ONCO2MC - Introduction

Introduction

ONCO2MC - Teaching profile

Learning outcomes

This programme in the Advanced 2nd cycle is designed to prepare doctors to qualify for the professional status of specialist doctor in medical oncology (Ministerial Decree of 29 May 2006, published on 14 June 2006).

Programme structure

Full time training takes six years, including at least three years of basic training in internal medicine and three years of advanced training in medical oncology.

It also includes theoretical training. Advanced training is made up of three years of placement in one or more of the departments approved for training in medical oncology.

The plan for the placement drawn up by the university placement coordinator must be approved by the ministerial qualification committee for the relevant specialization. These placements include duty activities.

ONCO2MC Programme

Detailed programme by subject

CORE COURSES [360.0]

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Applications should be submitted to the lecturer in charge of the programme.

The organization of the selection examination is in accordance with the timetable and the general examination regulations.

Selection committee

The selection committee (MACCS) is made up of members of the programme committee together with two invited members and two coopted members.

Specific professional rules

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

6 monthly clinical assessments: these are organized (in writing) by each candidate's placement supervisor and focus on different areas. Assessments for all the candidates are examined by all the placement supervisors at six-monthly meetings.

First part

At the end of the three-year basic training, each candidate is assessed at an interview designed to test their general knowledge of internal medicine. In accordance with the Royal Decree of 16 March 1999, candidates will receive an official certificate to show they have successfully completed a special university training course.

Second part

At the end of the three years of advanced training, each candidate is assessed on their in-depth knowledge of oncology. Candidates must also take the inter-university examination organized by the inter-university post-graduate training panel. They must produce a dissertation on a topic in medical oncology and publish an article.

When the above requirements have been fulfilled, the programme committee will award the academic degree of Advanced Master in Medical Oncology.
