OPES2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Entry to all Masters (with the exception of Advanced Masters) can be gained through the special procedure for accrediting prior learning and experience known as VAE (validation des acquis de l'expérience).

Students at the Open Faculty of Economic and Social Policy fall mainly into this category. For further details about how to apply, see [FOPES](#)

Admission and Enrolment Procedures for general registration

Please refer to the special procedures below for Open Faculty programmes. The details and the annual calendar are at

Teaching method

Encouraging students to take responsibility for their own learning is very much part of the tradition at the Open Faculty for Economic and Social Policy. The fact that students are themselves change makers means that every stage of the teaching programme is carefully thought out and innovative. This is reflected in admission procedures, learning agreements, assessment techniques and supervision of dissertations. The link between individual and group work is constantly made in various ways which involve all the participants :

- lecturers who suggest subjects related to research or who are involved in key situations where economic and social policies are discussed or drawn up;
- advisers who organize seminars and workshops and who supervise the subgroups encourage the sharing of ideas and a group approach in the scope and analysis of the subjects being studied;
- the teaching materials unit which helps in researching documents and publishing books and reports ;
- special seminars for the teaching staff, coordinators' sessions and meetings for advisers are just some of the ways in which views and input on the overall programme are encouraged.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

There is both continuous assessment as well as a final assessment in order to obtain the Master. The overall learning process is regularly assessed at coordination sessions.

Mobility and/or Internationalisation outlook

- **Professional focus in economic and social policy**

- The Open Faculty not only welcomes students from all over Belgium but also those from neighbouring countries who work outside Belgium and can attend sessions which take place on Saturdays, or one day during the week as well as in the evening.
- the Open Faculty is looking for opportunities abroad to find synergies with other institutions doing similar work

- **Professional focus in development and project management**

- this is designed specially for African and European students who are working on local development projects in Africa
- in future, the programme will have a more international nature following cooperation agreements with African educational institutions.

Possible trainings at the end of the programme

Entry to Higher Teaching diploma (l'agrégation de l'enseignement secondaire supérieur) (30 credits) and to the Higher Teaching certificate (certificat d'aptitude pédagogique approprié à l'enseignement supérieur - CAPAES).
