Course prerequisites

There are no prerequisites between course units (CUs) for this programme, i.e. the programme activity (course unit, CU) whose learning outcomes are to be certified and the corresponding credits awarded by the jury before registration in another CU.

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Access based on validation of professional experience

> It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Entry to all Masters (with the exception of Advanced Masters) can be gained through the special procedure for accrediting prior learning and experience known as VAE (validation des acquis de l'expérience).

Students at the Open Faculty of Economic and Social Policy fall mainly into this category. For further details about how to apply, see [FOPES](#)

Further information on timing can be found at www.uclouvain.be/opes.

Teaching method

Encouraging students to take responsibility for their own learning is very much part of the tradition at the Open Faculty for Economic and Social Policy. The fact that students are themselves change makers means that every stage of the teaching programme is carefully thought out and innovative. This is reflected in admission procedures, learning agreements, assessment techniques and supervision of dissertations. The link between individual and group work is constantly made in various ways which involve all the participants :
