

ORTO2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Orthopaedic Surgery (Ministerial decree of 07.1979, published on 07.08.1979).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least six years, full-time, including two years of foundation studies in general surgery and four years of higher specialised training in orthopaedic surgery and traumatology of the locomotor mechanism. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

ORTO2MC Programme

Detailed programme by subject

CORE COURSES [360.0]

- Mandatory
- ✘ Optional
- △ Not offered in 2024-2025
- ⊙ Not offered in 2024-2025 but offered the following year
- ⊕ Offered in 2024-2025 but not the following year
- △ ⊕ Not offered in 2024-2025 or the following year
- Activity with requisites
- 🌐 Open to incoming exchange students
- 🚫 Not open to incoming exchange students

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

TCuntcti Specific professional rules

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

During the training course, the evaluation will be based on the reports of the training supervisor, active participation in the course and on the assessment of knowledge organised by a jury composed of the instructors of the speciality. Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course. At the end of the course, among other tasks, the candidate will have to present an original piece of work in the domain concerned in the form of a thesis or a publication with sufficient distribution.

Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Orthopaedic Surgery.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic 24.3-sient fic usudy Ppogramme 2n the countextof a specialitsd training rprogramme 2lading o thes talidation
