Introduction

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

Les étudiants qui souhaitent introduire une demande de **dérogation pour non finançabilité** (email reçu par SIC) doivent envoyer un **mail** au **SAFI** (safi@uclouvain.be) **dans les 7 jours** qui suivent la réception du mail de SIC **ou au plus tard le 30 septembre 16h00** justifiant leur souhait à poursuivre leur cursus et accompagné des éventuels justificatifs.

Specific professional rules

Successful completion of the Teacher Training Certificate (upper secondary education) leads to the award of the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Plusieurs méthodes d'évaluation sont mises en oeuvre dans ce programme :

- **l'évaluation continue** des productions/apprentissages de chaque groupe d'étudiants : présentations en public, animation de débats, rapports écrits ;
- **l'évaluation individuelle** des apprentissages : via les examens écrits et oraux. La production de rapports de stage,... dans lesquels peuvent être évalués le recul critique mais aussi l'intégration dans un travail de groupe.
