

## CRIM2M - Introduction

### Introduction

---

#### Introduction

The School of Criminology provides specialized multidisciplinary training which allows to understand crime in all its complexity. The training focuses on several disciplinary areas: criminal law and criminal practices; psychological processes involved in the transition to the crime; social factors acting out and social mechanisms of creation of criminal law and the conditions of its application; study of human behavior in its interaction with biological, social and psychological dimensions.

#### Your profile

- Are you interested in issues of deviance;
- you plan to perform duties in the field of prevention and repression of crime;
- you place the individual at the center of your concerns and you want to be socially useful;
- you are looking for a training that prepares you for the response on the ground.

#### Your future job

Fields of action of the criminologist are:

- the Courts (federal and local) and prisons;
- the youth welfare: social service courts, facilities for children in care teams in the community, etc.;
- the prevention services created under security contracts and society;
- the Mental Health and Addiction;
- the social assistance to individuals (remand prisoners, detainees, victims, etc..) in the homes of justice in victim services, etc.;
- the research.

#### Your programme

The master offers:

- an interdisciplinary approach to deviance from the norm (sociology, law, psychology and biology);
- a specialized training in legal matters in connection with the crime and the penalty;
- an applied learning intervention: Maintenance behaviors, conflict management and crisis situations, etc.;
- extensive methodological tools;
- an internship in the field;

## Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified in the **detailed programme**: their title is followed by a yellow square.

### Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

## Teaching method

---

### First year of the master

Cross-disciplinary training in sociology, psychology and law

### Second year of the master

Professional focus: the professional focus prolongs the core courses through cross-disciplinary training made up of criminological integration courses.

The student's understanding of criminality, penalty will be put to the test through a 300h internship, which will also help him develop analytical and intervention skills.

**Research focus:** the research focus prolongs the core courses by going into more depth on major theoretical views, not by giving the student encyclopaedic knowledge but rather with a view to highlighting the link between epistemological, theoretical and methodological options.

## Evaluation

---

*The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".*

Each course on the programme includes an oral or written exam, possibly completed by a project leading to a report which forms part of the evaluation.

The internship involve the preparation of a report being evaluated.

The work on the dissertation involve the drafting of a document which will be presented orally to a jury.

## Mobility and/or Internationalisation outlook

---

During the second semester of the second year of the Master, students can participate in an Erasmus exchange with other university institutions.
