RESEARCH FOCUS [30.0]

By offering the opportunity to further the fundamentals of the course and introducing students to an approach to research, the research focus develops culture generally and specific academic skills for the student of romance languages: analysis, review, a critical mind, autonomy, adaptability and the perfection of all elements of discourse. It is aimed at students who are interested in research, but also in the numerous indirect prospects to which an education in French and romance languages and literature can lead.

Students have the opportunity to gain work experience through an internship related to one of the direct or indirect career options relevant to their research focus. This can take place during the first or second year of the Master's degree. At least two weeks prior to the programme approval date (in the first or second bloc), students must submit their internship proposal and a duly completed internship agreement to the supervisory panel. Students whose proposals are not accepted will add 10 additional credits from the research focus to their programme.

Students who choose this finalité may apply to participate in the co-graduation program in [French and Francophone Studies](#).

TEACHING FOCUS [30.0]

IMPORTANT NOTE: In accordance with article 138 para. 4 of the decree of 7 November 2013 concerning higher education and the academic organisation of studies, teaching practice placements will not be assessed in the September session. Students are required to make every effort to successfully complete the teaching practice in the June session, subject to having to retake the year.

The teaching focus is concerned with preparation for teaching at the higher levels of secondary education. The programme is designed to develop the following skills:

- design, planning and assessment of practice;
- ability to assess practices and their context;
- understanding of the educational institution, its setting and players.

Three kinds of activities are involved:

- teaching practice at the higher levels of secondary education (60 hours);
- seminars;
- lectures.

They are divided into two categories:

- teaching practice, multidisciplinary courses and seminars, common to all subjects. They have the code LAGRE (13 credits);
- subject-based teaching practice, courses and seminars (17 credits).

The teaching focus of the 120 credit Master's degree includes the training which leads to the qualification for teaching in secondary education (Agrégation de l'enseignement secondaire supérieur – AESS) (300 hours - 30 credits), in accordance with the Decrees of 8 February 2001 and that of 17 December 2003 (concerning the basis of neutrality) relating to the initial training of teachers at the higher levels of secondary education in the French Community in Belgium. These 30 credits also make up the AESS programme in Ancient

Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, in the first annual block of their Masters programme, students must take supplementary classes chosen by the faculty to satisfy course prerequisites.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below). The complementary module (maximum 60 credits) is tailor-made by the jury according to the student's educational background and added to the Master's programme in order to acquire fundamental knowledge to then pursue the 120 credits of the Master's programme.

Who is it for?

- Students from a non-university higher education institution
- Candidates admitted with additional training
- Candidates admitted on the file with additional training

All the explanations are in [this document](#) (in French).

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

Prerequisites list

LROM9021 "[Observation and teaching practice in French and Romance languages and literature : analysis and preparation](#)" has prerequisite(s) LROM2940 OR LROM2945 OR LROM2946 OR LROM2950

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

ROM2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Applications deemed admissible are forwarded to the Faculty by Enrolment Services. Applications that do not meet these criteria are automatically rejected.

Eligibility criteria

Applications submitted to the Faculty by UCLouvain's Enrolment Department are examined by the program's jury in accordance with the specific conditions of access detailed above.

The jury decides on the admissibility of candidates on the basis of the information contained in their application file, the quality of the training they have undergone and the results they have obtained.

When examining the application, the jury will pay particular attention to the following points:

- **Consistency** between the candidate's previous academic career and the prerequisites for the targeted program. The match between the candidate's academic background and the UCLouvain bachelor's degree giving direct access to the master's program need not be perfect, but the skills acquired (see specific access conditions) must be close; Example: for an application for admission to a master's program in modern languages and literature, the candidate's previous training includes courses in languages and literature in both modern languages.
- **Grades** obtained in the program's major disciplines (see specific entry requirements);
- **Arguments** put forward by the applicant in his or her cover letter (training project in line with the program in question, coherence between the applicant's application and the program in question, etc.) Example: the language combination requested by the applicant is organized in the program in question.
- **Original covering letter.** An original covering letter is expected, explaining the personal training project. Any plagiarism or use of artificial intelligence in writing the letter to the jury will result in the application being disqualified.
- **Experience gained.** If the access diploma was obtained more than 5 years ago, it is imperative that the experience acquired since leaving school is directly related to the field of study of the programme applied for.

Changes to the conditions of access to the Faculty of Philosophy, Arts and Letters for 2025-2026 will be available in this [document](#) .
