SPOB1BA - Introduction

Introduction

Introduction

Are you interested in the world around you and the way in which political power is exercised at national, European and international level?

The bachelor's degree in political science at the Saint-Louis - Bruxelles campus offers you an undergraduate education which teaches you to understand the mechanisms of power which govern today's world:

- How are decisions made, and at which levels of power?
- Who actually influences decisions and in whose interest?
- What are the main systems of political power both historically and throughout the world?
- How can we explain their emergence, evolution, successes and difficulties?
- What are the main contemporary issues at national, European and global level? Who do they oppose? What are the power relationships involved? What are the possible outcomes?

These are just some of the questions which political science provides answers to through various specialised areas: political parties and interest groups, electoral studies, international relations, political regimes, etc.

But power does not operate in isolation. Courses in sociology, history, law, economics and philosophy shed light on human relations in general, as well as on how they function and evolve. Finally, in order to decipher a political issue, it is necessary to master the tools for gathering and analysing the data required for a scientific understanding of human phenomena: documentary research, field observations, interviews, opinion polls, statistical analyses, etc.

Your profile

Would you like to understand the issues and political and social transformations in contemporary societies? Would you like to play an active role at local, national, European and international level?

An open mind, an interest in foreign languages, intellectual curiosity and constant attention to current events are basic prerequisites for future students.

Your future job

The bachelor's degree in political science gives access to a variety of master's programs in Belgium and abroad. A master's degree in political science opens up a wide range of career opportunities.

Political scientists work in all positions related to government action:

- its implementation: government administration, international organisations, the European Commission, regional public bodies, etc;
- its elaboration: participation in an elected assembly, parliamentary or ministerial assistance, consulting firm;
- its influence: lobbying, campaigning in an NGO, attaché for a political party, a trade union, an industry association, etc;
- its analysis: journalism, consultancy, polling, research, analysis in a research department;
- its teaching: continuing education or social advancement organisations, upper secondary education, higher education or university.

Your programme

The bachelor's degree in political science is a first-cycle programme (a 'transition' bachelor's degree), consisting of 180 credits spread over three years (60 credits per year).

The programme is divided into two parts: one general, the other of a political science nature.

The general part of the programme aims to provide a background in the humanities and social sciences. This knowledge is acquired through introductory courses in the main disciplines of the humanities and social sciences (philosophy, history, economics, law, sociology and psychology), and through course units and seminars designed to teach different analytical methods in the humanities and social sciences.

The political science part of the programme is structured around both general (political science: founding texts) and specialised (comparative politics, political parties and interest groups, EU politics, analysis of public action, analysis of international relations, etc.) political science course units.

Bachelor's degree students also receive high-quality language instruction, as they are required to take English and Dutch course units in the first and second years, and to choose one of the two languages in the third year. During the third year, a political science course must be taken in English or Dutch.

Furthermore, during the second term of the third year, students may take part in an Erasmus exchange at a university in Europe, Asia, North America or South America, whose programmes are taught in a language other than French.

Another option is for students who pass the June exam session to apply for a summer language study grant in Flanders or abroad.

The Saint-Louis - Bruxelles campus also offers a bilingual (French-English) or trilingual (French-English-Dutch) bachelor's degree programme in political science.

Pursuing a dual bachelor's degree

Our dual bachelor's degrees are one of the special features of UCLouvain Saint-Louis - Bruxelles. They allow students to take a second

The dual bachelor's degree has the same value as the main bachelor's degree and provides immediate access to the corresponding master's degree.

Dual bachelor's degree programmes available for political science students:

- [Bachelor in Law \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)
- [Bachelor in Philosophy \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)
- [Bachelor in History \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)
- [Bachelor in Information and Communication \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)
- [Bachelor in Sociology and Anthropology \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)
- [Bachelor in Economics and Management \[Dual Bachelor's degree for the holder of a Bachelor in Political Sciences\]](#)

For further information, please contact the faculty administration: espo-slb@uclouvain.be.

SPOB1BA - Teaching profile

Learning outcomes

I A grounding in the core teachings and methods of the discipline of political science

- A command of the fundamentals of political science and its epistemological grounding, with a view to addressing the key research issues of the discipline
- A thorough grounding in political science, in its various branches: international relations, European studies, (national) political institutions and regimes, studies of political parties and pressure groups, analysis of public policies and political ideas, etc.

II Basic knowledge in fields complementary to political science

- The ability to draw on interdisciplinary knowledge from various fields of the humanities and social sciences in order to analyse contemporary or historical social phenomena
- General knowledge of the humanities and social sciences, based on an understanding of the main postulates and teachings of the various disciplines, as well as their methods and the related ethical issues

III A grounding in the scientific method

- The ability to apply the rules and ethical principles of the scientific approach in political science
- The ability to gather and analyse quantitative and qualitative empirical data with discernment
 - The gradual ability to produce analytical work on contemporary political issues, on their own or as part of a team
 - The gradual ability to gather information using the most relevant data collection methods (statistics, etc.)
- The ability to carry out an analysis independently as well as jointly with peers
- Critical thinking and independent judgement
- The ability to analyse information, based on a review of the relevant literature and the most appropriate analytical methods

IV High-level written and oral communication skills in French, English and Dutch

- The ability to communicate the results of an analysis in a clear, coherent, structured and well-presented manner, in both written and oral form in French, English and Dutch
- The ability to take a course and the oral or written exam in English and Dutch
- Fluency in spoken and written English and Dutch; more specifically, the ability to carry on an everyday conversation and to communicate about the subjects and analyses of political science
- A familiarisation with an environment in a language other than their own (stays abroad with the possibility of an Erasmus exchange within or outside Europe in the third year of the bachelor's programme)

Programme structure

The bachelor's degree in political science is a first-cycle programme (a 'transition' bachelor's degree), consisting of 180 credits spread over three years (60 credits per year). It prepares students for a number of master's degree programmes in the second cycle, which they can take at Louvain-la-Neuve or another university in Belgium or Europe (for details, see the 'Access to further studies' page).

The first year of the degree is common to the political science, information and communication and sociology and anthropology programmes offered by the faculty. In addition to the educational commitment to providing a solid foundation for a multidisciplinary programme, which is one of the hallmarks of the programmes offered at UCLouvain Saint-Louis - Bruxelles, this shared first year facilitates reorientations at the beginning of the programme: students can change their orientation in year 2 to one of the other two programmes (information and communication or sociology and anthropology) without having to make up any course units.

The programme gradually becomes more specialised: the second year includes 20 credits in political science, and the third year includes 30 credits in political science.

The programme is made up of lecture-based course units, with introductory courses in the humanities and social sciences (philosophy, law, history, economics, psychology, sociology, political science, information and communication), as well as lessons in academic methodology accompanied by practical work (e.g. approaches and research methods in social sciences).

At the end of the programme, there is a workshop during which students work together in the field in small groups and present their work to a panel of experts, who assess the quality of the presentation and the relevance of the analysis.

SPOB1BA - Information

Access Requirements

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

- [General access requirements](#)
- [Specific access requirements](#)
- [Access based on validation of professional experience](#)
- [Special requirements to access some programmes](#)

General access requirements

Except as otherwise provided by other specific legal provisions, admission to undergraduate courses leading to the award of a Bachelor's degree will be granted to students with one of the following qualifications :

1. A Certificate of Upper Secondary Education issued during or after the 1993-1994 academic year by an establishment offering full-time secondary education or an adult education centre in the French Community of Belgium and, as the case may be, approved if it was issued by an educational institution before 1 January 2008 or affixed with the seal of the French Community if it was issued after this date, or an equivalent certificate awarded by the Examination Board of the French Community during or after 1994;
2. A Certificate of Upper Secondary Education issued no later than the end of the 1992-1993 academic year, along with official documentation attesting to the student's ability to pursue higher education for students applying for a full-length undergraduate degree programme;
3. A diploma awarded by a higher education institution within the French Community that confers an academic degree issued under the above-mentioned Decree, or a diploma awarded by a university or institution dispensing full-time higher education in accordance with earlier legislation;
4. A higher education certificate or diploma awarded by an adult education centre;
5. A pass certificate for one of the [entrance examinations](#) organized by higher education institutions or by an examination board of the French Community; this document gives admission to studies in the sectors, fields or programmes indicated therein;
6. A diploma, certificate of studies or other qualification similar to those mentioned above, issued by the Flemish Community of Belgium, the German Community of Belgium or the Royal Military Academy;
7. A diploma, certificate of studies or other qualification obtained abroad and deemed equivalent to the first four mentioned above by virtue of a law, decree, European directive or international convention;

Note:

Requests for equivalence must be submitted to the Equivalence department ([Service des équivalences](#)) of the Ministry of Higher Education and Scientific Research of the French Community of Belgium in compliance with the official deadline.

The following two qualifications are automatically deemed equivalent to the Certificate of Upper Secondary Education (Certificat d'enseignement secondaire supérieur – CESS):

- European Baccalaureate issued by the Board of Governors of a European School,
- International Baccalaureate issued by the International Baccalaureate Office in Geneva.

8. Official documentation attesting to a student's ability to pursue higher education (diplôme d'aptitude à accéder à l'enseignement supérieur - DAES), issued by the Examination Board of the French Community.

Specific access requirements

- Access to bachelor programmes for candidates of nationality outside the European Union who are not assimilated to Belgian nationals is subject to the following criteria:
 - not have obtained a secondary education diploma for more than 3 years maximum. Example: for an admission application for the academic year 2024-2025, you must have obtained your diploma during the academic years 2021-2022, 2022-2023 ou 2023-2024. In the French Community of Belgium, the academic year runs from September 14 to September 13
 - not already hold an undergraduate degree
- Candidates, whatever their nationality, with a secondary school diploma **from a country outside the European Union**, must have obtained an average of 13/20 minimum or, failing that, have obtained this average, have passed one year of study in Belgium (for example special Maths / sciences). A non-successful year will not be taken into consideration.

- For any secondary school diploma **from a European Union country**, the admission request must contain the equivalence of your diploma or, at the very least, proof of the filing of the equivalence request with the Wallonia-Brussels Federation (French Community of Belgium). For any information relating to obtaining an equivalence, please refer to [the following site](#).
- For any secondary school diploma **from a country outside the European Union**, the admission application must contain the [equivalence of your diploma](#) issued by the Wallonia-Brussels Federation (French Community of Belgium). If you have a restrictive equivalence for the programme of your choice, in addition of it, you **must** have either the [DAES](#) or a certificate of successful completion of the [examination giving access to 1st cycle studies](#) when you submit your application

Access based on validation of professional experience

Admission to undergraduate studies on the basis of accreditation of knowledge and skills obtained through professional or personal experience (Accreditation of Prior Experience)

Subject to the general requirements laid down by the authorities of the higher education institution, with the aim of admission to the undergraduate programme, the examination boards accredit the knowledge and skills that students have obtained through their professional or personal experience.

This experience must correspond to at least five years of documented activity, with years spent in higher education being partially taken into account: 60 credits are deemed equivalent to one year of experience, with a maximum of two years being counted. At the end of an assessment procedure organized by the authorities of the higher education institution, the Examination Board will decide whether a student has sufficient skills and knowledge to successfully pursue undergraduate studies.

After this assessment, the Examination Board will determine the additional courses and possible exemptions constituting the supplementary requirements for the student's admission.

Special requirements to access some programmes

- Admission to **undergraduate studies in engineering: civil engineering and architect**

Pass certificate for the [special entrance examination for undergraduate studies in engineering: civil engineering and architect](#).

Admission to these courses is always subject to students passing the special entrance examination. Contact the faculty office for the programme content and the examination arrangements.

- Admission to **undergraduate studies in veterinary medicine**

[Admission to undergraduate studies in veterinary medicine is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in physiotherapy and rehabilitation**

[Admission to undergraduate studies in physiotherapy and rehabilitation is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in psychology and education: speech and language therapy**

[Admission to undergraduate studies in psychology and education: speech and language therapy is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

- Admission to **undergraduate studies in medicine and dental science**

[Admission to undergraduate studies in medicine and dental science is governed by the Decree of 16 June 2006 regulating the number of students in certain higher education undergraduate courses \(non-residents\)](#).

Note: students wishing to enrol for a **Bachelor's degree in Medicine** or a **Bachelor's degree in dental science** must first sit an [aptitude test \(fr\)](#).

- Access to **Bachelor of Science in Business Engineering**

The Bachelor of Science in Business Engineering is a joint program organised by KU Leuven and UCLouvain Saint-Louis Bruxelles. In order to register, all candidate must first submit an application via the [KU Leuven admission platform](#). The [conditions of access](#) to this programme are specific.
