

STOM2MC - Introduction

Introduction

STOM2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Stomatology (Ministerial Decree of 26.04.1982, published on 01.07.1982).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least five years : 3 years of foundation studies and 2 years of higher studies . During the first 3 years of basic training, the candidate will follow all the courses and take all the exams of the three undergraduate years in Dental Sciences. He will be exempt from doing these if he already a graduate in Dental Sciences, and will, in that case, be authorised to immediately embark on his higher study programme. Besides

STOM2MC - Information

Access Requirements

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the competent authorities of the other linguistic communities.

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

Specific professional rules

These studies lead to a professional title subject to specific rules or restrictions on professional accreditation or establishment.

You will find the necessary legal information by [clicking here](#).

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Theoretical and practical exams of the three undergraduate years in Dental Sciences (DENT 21 , 22 et 23). "Ongoing" evaluation carried out by the practical training supervisor every six months, also taking into consideration the "savoir," the "savoir-être" and the "savoir-faire" of the candidate.
