THEA2A - Teaching profile

Learning outcomes

Teaching Performing Arts to students in secondary education, such is the challenge that the aggregation student (didactics course) prepares to face. The vision of aggregation in Performing Arts (didactics course) is to provide him or her with an initial training that will enable the student to mobilize the necessary skills to start out effectively in the profession of teacher and to develop positively.

Today's teachers are called on to play an essential role for their students, so say the "mission decrees" of 24 July 1997:

- to promote self-confidence and the development of the person of each student;
- to show the students how to assimilate knowledge and acquire the skills to make them able to learn throughout their lives and take an active place in economic, social and cultural life;
- to prepare all students to become responsible citizens, capable of contributing to the development of a democratic, solidarist, pluralist society open to other cultures;
- to guarantee all students equal opportunities for social emancipation.

The training for the Agrégation de l'enseignement secondaire supérieur qualification is organised with reference to the Decree of 8 February 2001 relating to the initial training of teachers at the higher levels of secondary education in the French Community of Belgium and to the Decree of 17 December 2003 which requires neutrality in subsidised official education and other measures relating to teaching.

The detailed programme corresponds to the 30 credits of the teaching focus where it is organised. If no teaching focus is offered in the subject, a specific agrégation programme will offer the three different kinds of activities, in line with the requirements of the above-mentioned Decrees.
