**S'il choisit la finalité didactique, le diplômé sera capable de :** Mobiliser les compétences nécessaires pour entamer efficacement le métier d'enseignant du secondaire supérieur, en religion catholique, et pouvoir y évoluer positivement.

1. Intervenir en contexte scolaire, en partenariat avec différents acteurs
2. Enseigner en situations authentiques et variées
3. Exercer un regard réflexif et se projeter dans une logique de développement continu

Pour plus de détails, consultez l'Agrégation de l'enseignement secondaire supérieur (théologie/études bibliques).

## Programme structure

The core courses (82 credits) must include a dissertation, one seminar in heuristics and one in theological integration. The other activities cover the diverse areas of theological studies and are offered in the form of biennial courses. Each student reserves one of the two focuses available (research or teaching) for a total of 30 credits and chooses optional courses.

Each student's programme will amount to at least 60 credits per year.

It must be approved by the Chair of the Faculty Masters Committee (TEBI).

Any student who so wishes may, with the consent of the aforementioned Chair, replace the activities included in his programme with equivalent activities which feature in the [Masters programme](#) offered by KULeuven (Faculteit Godgeleerdheid). The total number of activities followed at Leuven must not exceed 20 credits. Once he has exceeded 20 credits, the student is invited to enroll in the exchange programme which features in the agreement between the two faculties.

## Admission and Enrolment Procedures for general registration

## Specific professional rules

---

Successful completion of the master's course with **teaching focus** leads to the award of the master's degree with teaching focus and the title of secondary school education specialist.

The [Réforme des Titres et Fonctions](#) ("Titles and Functions Reform"), in force since 1 September 2016, is intended to harmonise the titles, functions and pay scales of basic and secondary education professionals in French Community of Belgium networks.

It also aims to guarantee the priority of preferred titles over minimum titles and to establish a regime for titles in short supply.

AESS holders can learn which functions they can carry out and the pay scales from which they can benefit by [clicking here](#).

The university cannot be held responsible for any problems that students may encounter at a later date with a view to a teaching appointment in the French Community of Belgium.

## Teaching method

---

The core courses are designed in such a way as to promote an interdisciplinary approach to theology. For these main activities, the syllabi allow for interaction between teaching and research, which should help students, including those on the teaching focus, to acquaint themselves with research in the various fields of theology.

By selecting one of the 5 programmes of study in the research focus, the student will not get lost in a sea of different methodology (Biblical exegesis, history, dogmatic, ethical or pastoral thought), but rather focus his training on one area, so as to reach a high enough level to think about undertaking doctoral research. In this case, teacher support can be more personalised, as learning about the specific methodology of a theological discipline is anchored in research seminars where methodology specific to the discipline gives way to practical exercises which are subject to formative evaluations.

For the teaching focus, the scale of the core courses (which, with the dissertation, amount to 90 credits) means that learning about being a teacher is not to the detriment of solid basic training in the various theological disciplines and their own methods.

The interdisciplinarity between the different domains of theology (as well as with philosophy and human sciences) is furthered specifically in the two general seminars (THEO2110 'De l'heuristique à la communication scientifique en théologie' [1st year] and THEO2000 'Séminaire d'™intégration théologique' [2nd year]). In the various disciplines, interdisciplinarity is of a structural nature: for example, Biblical exegesis links philology, history and literary theory; dogmatic theology and ethics address philosophy, the history of thought and various human sciences;

## Evaluation

---

***The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".***

The modes of evaluation are laid out in the syllabi for each activity. For the seminars, formative evaluation is foreseen.

Evaluation can be carried out in the form of a traditional oral or written exam or written work with formative evaluation.

In the second year of the Master, all research focus activities (including the activity included in the core courses of the specialisation chosen by the student) will be subject to a single evaluation to check, at the end of the second master, the student's skills in research via a "examen de maturité" (literal translation: maturity exam) in the theological discipline concerned. This evaluation will also assess written work drafted at the end of the research seminars in the second year. As with the dissertation, the marks for this evaluation will be weighted to reflect the effective importance as compared to other exams.

## Mobility and/or Internationalisation outlook

---

### International contacts

For UCLouvain theology students, [Erasmus exchanges](#), authorised at the bachelor stage, are encouraged at Master level. Moreover, exchanges with the faculties of theology at KULeuven, Strasbourg University and the Université catholique de Lyon are particularly promoted.

### International attraction

In French-speaking Europe, this masters programme is only recognised by public authorities at UCLouvain, the Université Marc Bloch de Strasbourg and the Université de Fribourg (CH). Furthermore, it provides students with the opportunity to obtain a 'licence canonique en théologie' (Sacrae theologiae licentiatius) if they meet the requirements to do so (see [page](#)). This opportunity attracts many ecclesiastical students from developing countries.

As well as a partnership agreement with the theology faculty at KULeuven, the faculty is developing international contacts to promote privileged partnerships at the level of its École doctorale thématique (THEODOC); this partnerships will ultimately have a positive knock-on effect on the way the Master is organised.

## Possible trainings at the end of the programme

---

Accessible advanced masters:

Null. But student can add to his training via the Master in biblical studies, in Sciences of religions, or in ethics.

Accessible doctoral training:

Doctorate in theology, doctorate in biblical studies (with possible prerequisites).

## Certificates

---

Activities chosen in the core courses of the masters programme can constitute a Certificate of university in theology (advanced module). The programme for this type of certificate will be drawn up individually with the person in charge of the programme. It will include at least one activity in each of the theological disciplines (exegesis, history, dogmatics, ethics, pastoral).
